

Fernando Augusto Rojas Pinto

Vice-President

Mr. Rojas graduated in electrical engineering from the engineering school of Universidad Nacional de Colombia (1978). He received a master's degree in electrical systems from the University of Manchester (1983). He also received a post graduate degree in finance from Universidad EAFIT (1996). His professional career began in 1979 at ISA as an engineer, where he held many positions, such as head of Programming and Analysis, Market Officer, Connection Manager and manager of Energy Transportation Services. He has been ISA's South American Manager since 2005. He is the Vice-Chairman of CTEEP's Board of Directors.
